

VATCHECKER – SIMPLE VAT STATUS VERIFICATION

Every company in Poland is obliged to check the VAT status of its contractors. The amendment to VAT regulations gives the right to remove taxpayers from the register without notice.

From January 1st, 2017 executives have removed tens of thousands taxpayers from the register. Make sure your contractors are still registered.

VATchecker is an easy to use solution which allows you to check if the subjects you cooperate with are registered as VAT payers.

Functionalities

1. Collective checklist of the contractors' current VAT status – the VAT identification numbers are imported in a spreadsheet
 - ★ The VAT status or the information about a wrong VAT identification number
 - ★ Information about the inquiry, i.e. time and date of the inquiry as well as its identifier
2. Downloadable credible database
3. Generating a complex report that includes:
 - ★ Name and address of the contractor
 - ★ which is a technical sign that is proof of a certain contractor's VAT status verification
4. Convenient access to data repository that includes the entire history of incoming reports along with the possibility to filter search results

Why **VAT**checker?

With VATchecker you will avoid sanctions for unauthorized:

VAT deduction

**Application of the 0%
VAT rate with regard
to the intra-Community
supply of goods**

**Reverse charge
mechanism
application**
